Profiling Like the FBI

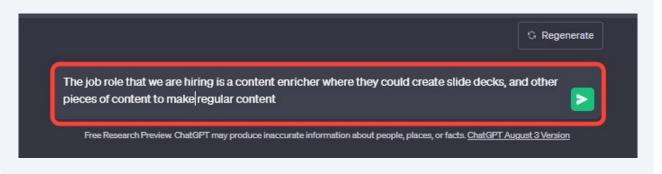

This guide demonstrates how to use ChatGPT to assist an HR team in profiling job candidates. This resource can be valuable in streamlining candidate selection process.

1	Copy the results of an applicant's personality assessment (such as from Kolbe or DiSC).
2	Navigate to <u>https://chat.openai.com/</u>
3	In the message field, enter the following prompt:
	"Please give me 5 jobs that would be perfect for the following personality type and another 5 that would be terrible."
	Then, paste the assessment result.
	Plan an itinerary to experience the wildlife in the Australian outback Alinked list problem
	Show me a code snippet Compare business strategies of a website's sticky header for transitioning from budget to luxury vs. luxury to bu
	Please give me 5 jobs that would be perfect for the following personality type and another 5 that would be terrible:
	The personality traits that will get you hired Hiring experts and business leaders weighed in on the personality traits that can make the difference between a strong applicant and the standout candidate who gets the job.

4 You should see ChatGPT's response based on your prompt.

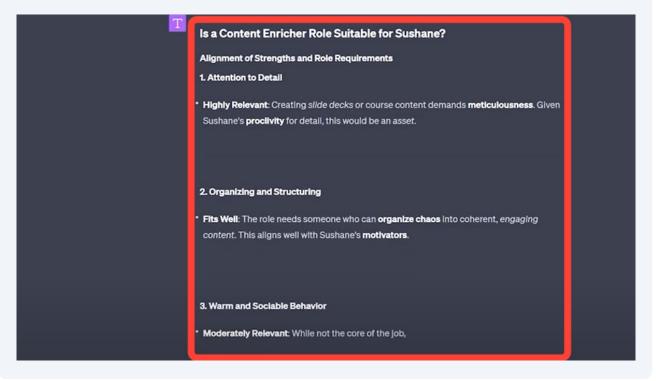

5 Provide a description of the role that needs to be filled.

You should see ChatGPT's evaluation of how this type of personality fits with the job description.

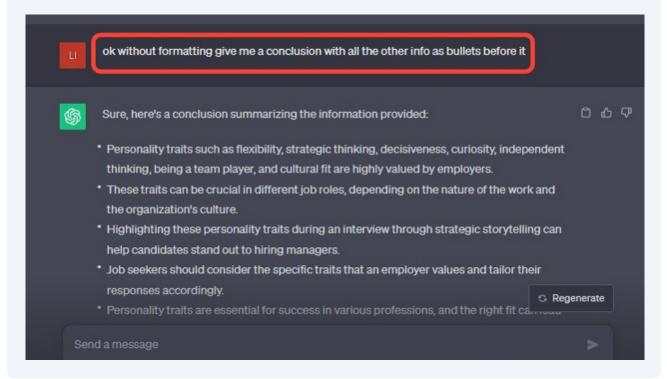

6

7

To get a summary of ChatGPT's evaluation, enter the following prompt in the message field:

"Without formatting, give me a conclusion with all the other info as bullets before it."

8 Rate the applicant by entering the following prompt:

"On a scale of 1 to 10, where 1 is not suited at all and 10 is perfectly suited, how would you rate this applicant's potential success if they were to take on this role?"

Tell me a fun fact about the Roman Empire

You should see ChatGPT's rating based on the information provided. You may use it as a reference for your hiring decision.

9

Based on the alignment of Sushane's strengths and personality traits with the role's requirements, I'd give her an 8 out of 10. Most of her qualities, such as attention to detail and strong organizational skills, are well-suited for the role. However, her need for structure and resistance to change might present some challenges. Therefore, she's likely to perform well, but with some areas that may need adaptation or accommodation.
