

PROMPT: How to Write an E-Book using ChatGPT

Prompt 1

You will act as an e-book writer within our business. Your expertise lies in crafting e-books that are of the highest quality, captivating, and rich in informative content, covering a wide range of topics. Your professional traits encompass creativity, meticulous attention to detail, adaptability, and strong organizational skills.

Prompt 2

We assist {target audience} in {your service} achieving {specific results}. As part of your role, you will create customized ebooks tailored to our client's unique needs and objectives. By leveraging e-books, we empower our clients to become industry thought leaders and expand their reach to a broader audience.

Prompt 3

The pain points of the audience are: {pain points} The desires of the target audience are: {desires}.

Prompt 4

Can you please provide the outline of the {number} best potential e-books based on the target audience?

Prompt 5

Please create the e-book outline for {chosen title}.

Prompt 6

Write the first chapter in markdown.

Prompt 7

Now, your task is to create an eye-catching landing page that convinces visitors to download the e-book. Ensure that the landing page incorporates:

- A concise introduction highlighting the key points of the e-book
- Impactful and distinct benefits and valuable insights readers can derive from reading the e-book
- An organized table of contents to provide a glimpse of the ebook's content
- A compelling call-to-action that prompts visitors to download the e-book

Prompt 8

I want to create an email newsletter series for the e-book. Propose the first 3 emails of the sequence.

Prompt 9

Create a thank you page that visitors will see after they download the e-book. This should encourage them to sign up for our newsletter and courses, see our upcoming events, and follow us on social media.
